SedonaOffice®
The #1 Financial Software for Security Companies

Release Notes for Version 5.6.0.108

FIXES AND CORRECTIONS

Sedona Service – Forced removal of time portion of Date when creating an invoice. Last day of month would fail in checking accounting period.

Added non-implemented fields in the master accounts Bridgestone export.

Corrected the problem with the PDFeXPLODE tag not including the "invoice" message identifier, for the group invoices in one email option.

Corrected some corner cases, in other open invoice detail (and totals) for invoice statement, Bridgestone Standard form and Bridgestone export.

ENHANCMENTS AND IMPROVEMENTS

Added UL Grade to the CS System section of the Customer Query Builder
