

Release Notes for Version 5.6.186

FIXES AND CORRECTIONS – 5.6.0.186

1. **Voiding a Customer Refund Check** – Corrected a reported problem where a “Transaction Out of Balance” message was being displayed to the User and the check would not void.
2. **Voiding a Manual Check to a Non-Vendor** – Corrected a reported issue: When voiding a manual check to a Non-Vendor, the Category on the void transaction was not being populated with the Category assigned to the original check expense.
3. **SedonaService Ticket Status** – Corrected a reported problem where the Ticket Status was being updated to the incorrect value.
